TOWN OF NEEDHAM

FOR

THE YEAR 1890.

NEEDHAM:
GEORGE W. SOUTHWORTH,
CHRONICLE BUILDING.
1890.

Warrant for Annual Meeting, March 3, 1890.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To WILLIAM WRAGG, a Constable of the Town of Needham, in said County, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Needham, qualified to vote in elections and in Town affairs, to meet at the TOWN HALL in said Town, on MONDAY, the THIRD DAY OF MARCH NEXT, next, at one o'clock in the afternoon, then and there to act upon the following articles, viz.:

ARTICLE 1. To choose a Moderator to preside in said meeting.

ART. 2. To hear the reports of Town Officers and Committees and act thereon.

ART. 3 To choose necessary Town Officers for their respective terms of office.

ART. 4. To bring in their ballots "Yes" or "No," in answer to the question: Shall licenses be granted for the sale of intoxicating liquors in this town?"

ART. 5. To see what action the Town will take in regard to unexpended balances and deficiencies.

ART. 6. To see what sums of money the Town will grant for the support of schools.

ART. 7. To see what sums of money the Town will grant for laying out, discontinuing, making, altering and repairing highways, townways and bridges, and for labor and materials to be used thereon.

ART. 8. To see what sums of money the Town will grant for the relief, support, maintenance and employment of the poor.

ART. 9. To see what sums of money the Town will grant for other necessary charges and expenses.

ART. 10. To see what action the Town will take in regard to street lights, and appropriating money for the same.

ART. 11. To see what disposition the Town will make in regard to the money received for Dog Licenses.

ART. 12. To see what sums of money the Town will grant for Public Library.

ART. 13. To see in what manner the Town will order the Highway Grant expended.

ART. 14. To see how the Town will have its Taxes collected, and to choose a Collector of Taxes, and fix the compensation therefor for the current year.

ART. 15. To see what sum of money the Town will grant for abatement of taxes.

ART. 16. To see what action the Town will take in regard to borrowing money in anticipation of taxes.

ART. 17. To see if the Town will accept the list of Jurors, as prepared and posted by the Selectmen.

ART. 18. To see what sum of money the Town will grant for the rent and care of the Town Hall.

ART. 19. To see if the Town will vote to have the reports of its officers and the proceedings of this meeting printed.

ART. 20. To see if the Town will appropriate money for the observance of Memorial Day.

ART. 21. To see in what manner the Town will notify and warn the voters of its Town meetings.

ART. 22. To see if the Town will accept the deed of Dedham Avenue Park, as offered by the donors.

ART. 23. To see what sum of money the Town will grant for the care and improvement of its public grounds.

ART. 24. To see what action the Town will take in regard to removing the obstructions at the railroad crossing on Oak street, and to keep said street open for public use.

ART. 25. To see what action the Town will take toward reimbursing the estate of Mark Lee for money spent under the direction of the Board of Health.

ART. 26. To see if the Town will vote to accept the provisions of Sections 74, 75, 76 and 77 of Chapter 27 of the Public Statutes in relation to Road Commissioners.

And you are directed to serve this Warrant by posting attested copies thereof in not less than twenty public places in said Town at least seven days before the time of said meeting.

Hereof, fail not, but make due return of this Warrant with your doings thereon, unto our Town Clerk on or before said day and time.

Given under our hands at Needham, aforesaid, this twentieth day of February, A. D. Eighteen hundred and ninety.

THOMAS SUTTON,
ARTHUR WHITAKER,
} *Selectmen of Needham.*

OFFICER'S RETURN.

Needham, February 22, 1890.

NORFOLK, ss.

By virtue of the within warrant, I have this day notified and warned the inhabitants of the within named town of Needham, as within directed, by posting true copies of this warrant, by me attested, in more than twenty public places within said town, more than seven days before the time of holding said meeting

WILLIAM WRAGG,

Constable of Needham.

A true copy—attest : CHARLES C. GREENWOOD,

Town Clerk.

Record of Annual Meeting, March 3, 1890.

The annual meeting of the inhabitants of the town of Needham, qualified to vote in elections and in town affairs was held pursuant to the foregoing warrant, in the Town Hall in said town, on Monday the third day of March, A., D. 1890.

Art. 1. Thomas Sutton and Arthur Whitaker were appointed Tellers by the Town Clerk, to aid him in checking the names of voters and counting the votes for Moderator, and they were sworn to the faithful discharge of their duties by the Town Clerk.

Emery Grover was chosen Moderator by ballot, and the check list was used.

Art. 2. Voted that the reports of town officers as printed, be accepted.

Art 3. Voted to proceed to elect one Selectman and Overseer of the Poor for three years, one Selectman and Overseer of the Poor for one year, three Highway Surveyors, three Fence Viewers, three Town Agents, Town Clerk, Town Treasurer, one Assessor for three years, Collector, one School Committee for three years, two Trustees of the Public Library for three years, three persons to act on Board of Health, two Constables and two Auditors on one ballot.

The Moderator appointed George Lyman Kingsbury, George W. Tisdale, Armand J. Mathey, George Walker, Arthur Whitaker and Thomas Sutton as Tellers, to aid him

in checking the names of voters and in assorting and counting the votes, and they were sworn to the faithful discharge of their duties by the Town Clerk.

Voted that the polls be closed at five o'clock.

After the ballots for town officers had been assorted and counted, the Moderator declared the result of the voting to be as follows:

For Selectman for One Year.

Aaron Twigg, had	171 votes
William E. Hurd, had	165 "
Scattering,	1 vote

And Aaron Twigg was declared elected to said office, and sworn by the moderator.

For Selectman for Three Years.

Arthur Whitaker, had	258 votes
Alpheus P. Boyd, had	90 "

And Arthur Whitaker was declared elected to said office.

For Overseer of the Poor for One Year.

Aaron Twigg, had	170 votes
William E. Hurd, had	164 "
Thomas Sutton, had	118 "
Alpheus P. Boyd, had	90 "
Arthur Whitaker, had	28 "

And Aaron Twigg was declared elected to said office, and sworn by the moderator.

For Overseer of the Poor for Three Years.

Arthur Whitaker, had	230 votes

And Arthur Whitaker was declared elected to said office.

For Town Clerk.

Charles C. Greenwood, had	349 votes

And Charles C. Greenwood was declared elected town clerk, and the oath of office was administered by the moderator in open town meeting.

For Town Treasurer.

Levi Ladd, had	347 votes
Scattering,	1 vote

And Levi Ladd was declared elected to said office.

For Assessor for Three Years.

Franklin Low, had	129 votes
Martin F. McDonald, had	113 "
William H. McIntosh, had	104 "
Scattering,	1 vote

And Franklin Low was declared elected to said office.

For Collector.

Charles Thorpe, had	311 votes

And Charles Thorpe was declared elected to said office.

For School Committee for Three Years.

Emery Grover, had	220 votes
Francis DeM. Dunn, had	154 "

And Emery Grover was declared elected to said office.

For Trustees of the Public Library for Three Years.

Samuel Hudson, had	345 votes
Samuel H. Jones, had	345 "
Scattering,	2 "

And Samuel Hudson and Samuel H. Jones were declared elected to said office.

For Highway Surveyors, Fence Viewers and Town Agents.

Thomas Sutton, had	299 votes
Arthur Whitaker, had	246 "
Aaron Twigg, had	170 "
William E. Hurd, had	121 "
Alpheus P. Boyd, had	51 "

And Thomas Sutton, Arthur Whitaker and Aaron Twigg were declared elected to said offices, and said Twigg was sworn by the moderator.

For Board of Health.

Albert M. Miller, had	345 votes
William H. Carter, had	234 "
Everett J. Eaton, had	231 "
Samuel Beless, had	103 "
E. C. Moulton, had	95 "
Scattering,	6 "

And Albert M. Miller, William H. Carter and Everett J. Eaton were declared elected to said office.

For Constables.

George Adams, had	281 votes
William Wragg, had	175 "
John W. Coppinger, had	94 "
James Lynes, had	62 "
George E. Wragg, had	52 "

And George Adams and William Wragg were declared elected to said office.

For Auditors.

Charles H. Crowley, had	332 votes
Charles E. Stanwood, had	224 "
Winthrop M. Chapman, had	110 "
Scattering,	11 "

And Charles H. Crowley and Charles E. Stanwood were declared elected to said office.

In voting the check list was used, and no person was allowed to vote until his or her name had been found upon the list and checked.

The following town officers were then nominated and chosen by the meeting, viz:

For Field Drivers.

George Adams, George Wright, William Wragg, George W. Colburn, Martin F. McDonald, W. J. Rimmele, Michael J. Quinn.

For Surveyors of Lumber.

Henry S. Locke, Franklin Low.

For Measurers of Wood and Bark.

Robert Mansfield, Henry Blackman, William H. McIntosh, J. J. Whetton, E. B. Fowler, William E. Hurd, George W. Dewing, H. E. Leland, George Wright, John W. Williams.

For Public Weighers.

E. B. Fowler, H. E. Leland, J. J. Whetton, Edwin R. Hill.

For Sealer of Weights and Measures.

E. C. Moulton.

For Pound Keeper.

E. J. Eaton.

Art. 4. Upon the question: "Shall licenses be granted for the sale of intoxicating liquors in this town?" the whole number of votes cast was three hundred and two (302). "Yes," ninety-nine (99); "No," two hundred and three (203).

In taking the vote under this article, the check list was used, and all ballots cast were deposited in the "Standard Cancelling Ballot Box," furnished by the Commonwealth. At the opening of the polls the ballot box register indicated 0, at the close 302.

Art. 5. Voted that all unexpended balances, with the exception of the unexpended balance for sidewalks, be turned into the treasury, and the deficiencies be paid from the same.

Art. 6. Voted that the sum of ten thousand three hundred (10,300) dollars be appropriated for the support of schools for the ensuing year.

Voted that the sum of seven hundred (700) dollars be appropriated for books and supplies.

Voted that the sum of six hundred (600) dollars be appropriated for incidentals for schools.

Art. 7. Voted that the sum of five thousand five hundred (5,500) dollars be appropriated for laying out, discontinuing, making, altering and repairing highways,

townways and bridges, and for labor and material to be used thereon.

Voted that the sum of one hundred and fifty (150) dollars be appropriated for concrete sidewalks, where the abutters will pay one half the expense—the money to be expended under the direction of the selectmen.

Voted that the sum of three hundred (300) dollars be appropriated for sidewalks, where the abutters will pay one half of the expense—the money to be spent under the direction of the Selectmen. Also that the Selectmen have power to spend any part thereof in the repair of sidewalks already constructed, and it was recommended that the sidewalks be repaired in the first part of the year.

Voted that the sum of seventeen hundred and sixty-six and 67-100 ($1,766.67) dollars be appropriated for payment of the note for widening and straightening of Great Plain avenue.

Art. 8. Voted that the sum of twenty-seven hundred (2,700) dollars be appropriated for the relief and support of the poor.

Art. 9. Voted that the sum of two hundred (200) dollars be appropriated for the removal of snow.

Voted that the sum of ten hundred (1,000) dollars be appropriated for miscellaneous expenses.

Voted that the sum of three hundred (300) dollars be appropriated for police.

Voted that the sum of two thousand (2,000) dollars be appropriated for salaries of town officers.

Voted that the sum of two hundred (200) dollars be appropriated for the enforcement of the liquor law.

Voted that the sum of four hundred (400) dollars be appropriated for interest.

Voted that the sum of fifty (50) dollars be appropriated for salary of chief engineer of the fire department.

Voted that the sum of one thousand one hundred and seventy-five (1,175) dollars be appropriated for the fire department.

Voted that the sum of one hundred and seventy-five (175) dollars be set apart from the appropriation for the support of the fire department, for the purpose of placing an alarm box at some convenient point in Charles River Village.

Voted that the sum of four hundred (400) dollars be appropriated for new hose for use of fire department.

Voted that the sum of four hundred and fifty (450) dollars be appropriated for printing and stationery.

Art. 10. Voted that the sum of eleven hundred (1,100) dollars be appropriated for street lights.

Art. 11. Voted that the money received for dog licenses be appropriated for the free public library.

Art. 12. Voted to appropriate two hundred (200) dollars for a sub-library for the village of Highlandville.

Art. 13. Voted that the highway grant be expended under the direction of the highway surveyors, at such time and in such places as they deem for the best interest of the town.

Art. 14. Voted that all poll taxes shall be payable on demand, and all other taxes on or before the first day of

October. Interest at the rate of one-half of one per cent. a month shall be charged on all taxes not paid on or before the first day of November. The collector shall use the means provided by law for the collection of all taxes remaining unpaid after the first day of December.

(The above paragraph shall be printed on the tax bills.)

Voted that the collector of taxes shall have the same power which the treasurer would have when acting as collector.

If in the judgment of the collector, that in consequence of removal, or any other circumstance, any tax should be collected before the first of October, he is fully authorized to serve his warrant in the collection of such tax at any time. The collector shall guarantee the full amount of all taxes legally assessed and committed to him for collection, and shall be held to pay the town treasurer the same, with any interest that may accrue thereon (except such sums as may be abated by the assessors.) He shall pay the said taxes and interest from time to time as he collects the same, and shall pay the full amount of all the taxes committed to him, with the accrued interest, on or before the first day of February, 1891. The compensation of the collector shall be one and one-fourth per cent. on all taxes and interest collected by him and paid to the treasurer. When one-half the amount of the warrant has been paid, he shall be entitled to receive his commission on that amount, and the balance when the full amount of taxes and interest has been paid into the treasury.

Art. 15. Voted that the sum of two hundred (200) dollars be appropriated for the abatement of taxes.

Art. 16. Voted that the treasurer be authorized, with

the approval of the selectmen, to borrow on temporary loan such sums of money as may be necessary in anticipation of the collection of taxes, the same to be paid therefrom.

Art. 17. The list of jurors, as prepared and posted by the selectmen was submitted to the meeting. The name of Henry M. McIntosh was stricken from the list at his own request. The list as amended is as follows:

George A. Adams, John Arnold, Edgar H. Bowers, Alpheus P. Boyd, Howard A. Crossman, Jarvis Cartwright, John Dann, James Dring, John F. Edwards, Alger E. Eaton, Alonzo E. Foss, W. C. Freeman, Frank Graves, William J. Glancy, J. Wesley Greenwood, Solomon W. Hutchingson, William Harvey, William Lee, Franklin Low, Alexander Lynes, Timothy F. Maloney, Martin F. McDonald, T. Frederick Peabody, William J. Remmele, James H. Smith, Frederick D. Sutton, Elias Tuttle, John Thorpe, Aaron Twigg, Charles H. Woodruff, George Wright, George Walker, John H. Whittemore, Augustus Zirngiebel.

Voted that the list as amended be accepted.

Art. 18. Voted that the sum of ten hundred and fifty (1,050) dollars be appropriated for the care and rent of the town hall.

Art. 19. Voted that the town clerk cause to be printed official copies of the proceedings of this meeting, one of which he shall send to each officer of the town within two weeks after the final adjournment of this meeting, and shall deliver one copy to any voter or tax payer in the town who may apply for it, and that the town clerk furnish a copy of the record of each and every town meeting held during the year for printing, so that it may be bound with the annual report of town officers.

Voted that the reports and accounts of the town officers be made up to December 31, inclusive, and placed in the hands of the auditors, who shall examine and make report on the same, that the selectmen shall cause them to be printed, together with the tax list, and distribute them among the tax payers of the town, at least seven days before the annual meeting.

Art. 20. Voted that the sum of one hundred and twenty-five (125) dollars be appropriated for Memorial Day.

Art. 21. Voted that all town meetings be notified and warned by posting a copy of the warrant for the same, properly attested, in not less than twenty public places in the town, at least seven days before the time of said meeting. And that a copy of the town warrant be left at each dwelling house in town, at least seven days before said meeting, but the leaving of a copy as aforesaid, shall constitute no part of the service of said warrant.

Art. 22. Voted that the town accept Dedham Avenue Park, and instruct the selectmen to receive the deed thereof, the town paying for the sidewalk in full.

Art. 23. Voted that the sum of one hundred and twenty-five (125) dollars be appropriated for the care and improvement of the public grounds of the town, and that the sum be expended under the direction of the selectmen.

Art. 24. Voted that the selectmen be and are hereby authorized to remove the obstructions at the Oak street railroad crossing, and to keep said street open for public use.

Art. 25. Voted that a committee of three be appointed to see what arrangements can be made with the abutters to collect amounts due from them on said drain. The

moderator appointed the selectmen as said committee.

Art. 26. Voted that this article be dismissed.

Voted that the sum of $4,212.11, being the balance in favor of the town treasury, Jan. 1, 1890, be appropriated to the payment of town expenses for the current year.

Voted that the assessors be empowered to procure at the expense of the town, copies of any plans of lands in the town which they may deem necessary.

Voted that a committee of five be appointed by the chair, to procure a design for a town seal, to report at a future town meeting.

The moderator appointed Charles C. Greenwood, George K. Clarke and the selectmen as said committee.

By vote of the meeting Emery Grover, Esq., was added to the committee.

Voted that the moderator of the annual town meeting receive the sum of ten dollars for his services, and that the tellers of said meeting shall receive two dollars each as compensation for their services.

Voted that the boards of selectmen, school committee and assessors meet together as soon after the first day of January next as may be found convenient, and select from the different sections of the town nine citizens who shall constitute, together with said boards, a committee on appropriations. Said committee shall give one or more public hearings, and make a report to be printed and distributed with the town reports, recommending the appropriations necessary to be made at the next annual town meeting.

After the moderator had made declaration of the result

of the voting for town officers, the ballots cast for said officers were secured in an envelope and sealed up in open town meeting by the moderator, who endorsed upon the envelope for what officers the ballots were cast, the date of the election, and a certificate that all the ballots cast by the voters for such officers, and none others, are contained in said envelope. The ballots sealed as aforesaid were then delivered by the moderator into the custody of the town clerk as required by law.

Voted that this meeting be dissolved.

Dissolved.

Attest: CHARLES C. GREENWOOD,

Town Clerk.

Warrant for Town Meeting May 28, 1890.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To GEORGE ADAMS, a Constable of the Town of Needham, in said County, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Needham, qualified to vote in elections and in town affairs, to meet at the Town Hall in said town, on WEDNESDAY, THE TWENTY-EIGHTH DAY OF MAY current, at seven-thirty o'clock in the afternoon, then and there to act upon the following articles, viz:

ARTICLE 1. To choose a moderator to preside in said meeting.

ART. 2. To hear and act upon the report of the Water Commissioners.

ART. 3. To see if the town will authorize and instruct its Board of Water Commissioners to issue bonds, notes or scrip, to be denominated "Needham Water Loan," to an amount not exceeding seventy-five thousand dollars, and payable at periods not exceeding in all thirty years from the date thereof, and to sell or pledge bonds, notes, or scrip in pursuance of the provisions of Chapter 107 of the Acts passed by the Legislature of Massachusetts at the session

of 1888, and for the purposes named therein, and appropriate the proceeds for the construction of water works as provided, and authorize the Town Treasurer to borrow money with the approval of said Board in anticipation of said loan.

ART. 4. To see if the Town will vote to amend the second article of its by-laws relating to truants, adopted July 9, 1887.

And you are directed to serve this Warrant by posting attested copies thereof in not less than twenty public places in said town at least seven days before the time of said meeting.

Hereof, fail not, but make due return of this Warrant with your doings thereon, unto our Town Clerk on or before said day and time.

Given under our hands at Needham, aforesaid, this nineteenth day of May A. D. Eighteen hundred and ninety.

THOMAS SUTTON,
ARTHUR WHITAKER,
AARON TWIGG,
Selectmen of Needham.

OFFICER'S RETURN.

Needham, May 24, 1890.

NORFOLK, ss.

By virtue of the within warrant, I have notified and warned the inhabitants of the within named town of Needham, to meet as within directed, by posting true copies, by me attested, in not less than twenty public places in said town of Needham, seven days before time of holding said meeting.

GEORGE ADAMS,

Constable of Needham.

A true copy—attest : CHARLES C. GREENWOOD,

Town Clerk.

Record of Town Meeting May 28, 1890.

A meeting of the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, was held pursuant to the foregoing warrant in the Town Hall in said town on Wednesday, May 28, 1890.

Art. 1. Thomas Sutton and Arthur Whitaker were appointed tellers by the Town Clerk, to aid him in checking the names of voters and counting the votes for moderator, and they were sworn to the faithful discharge of their duties by the Town Clerk.

Emery Grover was chosen Moderator by ballot, and the check list was used.

Art. 2. "To hear and act upon the report of the Water Commissioners."

The report of the Water Commissioners was as follows:

"On the seventh day of November 1889, the town voted to accept chapter 107, Act of 1888, 'To supply the town of Needham with water.' The said act was printed in the town report of Dec. 31st, 1889. The third day of December, 1889, James W. Brown, John Moseley and John M. Hodge were elected a board of water commissioners, for three, two and one years respectively. Subsequently Mr. Brown resigned. His resignation was regretted by the board and citizens generally, owing to his business qualifi-

cations and his experience in the construction of water works. At a town meeting held January 29th, 1890, James Mackintosh was chosen to fill the vacancy. At this meeting five hundred dollars ($500.00) were appropriated for preliminary expense made necessary by the vote for water.

On the eighth day of February the water board met and organized by the choice of James Mackintosh as chairman and John Moseley as secretary.

The town has not at any of its meetings voted any instructions to the water commissioners. Consequently the commissioners have acted under the Act of the Legislature, chapter 107, sec. 2, which allows the town to contract with any adjacent city or town for a water supply, or it may take by purchase or otherwise, and hold the waters of Charles river to a limited extent, within the limits of or where it borders on said town, and of any stream or spring, or artesian or driven wells within the limits of said town. The 20th day of February, 1890, the water board voted that the secretary communicate with the water commissioners of the town of Wellesley and the city of Newton, to ascertain if they would supply us with water and on what conditions they would furnish it, authority having been granted Wellesley to supply Needham in 1888. The eighth day of March, we received the following communication from Wellesley, dated March 4th:

To the Water Board, Town of Needham:

Gentlemen.—Your communication of February 20th, in regard to a supply of water from our works for your town was read at a meeting of this board held last evening. The feeling of the board was that they would be very glad to help you in securing a supply of pure water for Needham, but could not come to any definite conclusion at that time. Our own consumption is increasing very fast, as the following figures will show:

1885, . . .	18,959,280 gallons.
1886, . . .	32,636,136 "
1887, . . .	36,927,624 "
1888, . . .	48,265,032 "
1889, . . .	71,046,032 "

It is not easy for us to estimate what our own needs will be, in say ten years. Your own town will no doubt make rapid growth in that time. We should, no doubt, be compelled to expend a considerable sum in increasing our supply and pumping plant, pipe lines, land, rights of way, etc. I ought to say that the last two years given above were very wet ones, and but little water was used on lawns, which in our town is quite a large item. There are so many points to be considered in this question that the board feels that it must take more time for its careful consideration, and endeavor at a later date to report to you its definite conclusion. Yours very truly,

WELLESLEY WATER BOARD,

By F. L. FULLER, Clerk.

The city of Newton was obliged to get an enabling act from the legislature. The city council passed an ordinance requesting the mayor to apply to the general court for such enabling act, which was granted, and the twenty-ninth of April the water board of Newton presented a statement of conditions, subject to the ratification of the city council, which is herewith appended:

WATER REGISTRAR'S OFFICE,
City Hall, West Newton, Mass., April 28th, 1890.

TO THE BOARD OF WATER COMMISSIONERS,
NEEDHAM, MASS.:

Gentlemen.—The Newton Water Board makes, subject to ratification by city council, the following proposition to

supply the town of Needham with water:

1st. The city of Newton, at its own expense, to extend and maintain a 12-inch water main from present terminus on Needham street to a point on division line between the two municipalities.

2d. The city of Newton to place and maintain on this main, at its expense, meters to determine the quantity of water used by the town of Needham.

3d. Water to be furnished the town of Needham at the following rates:

For consumption, averaging daily for one year under 50,000 gallons per day (per thousand gallons), twelve (12) cents. For consumption averaging daily for one year over 50,000 gallons per day, (per thousand gallons), eleven (11) cents.

Provided that the least charge for water furnished in any one year shall be $2,000.

4th. This agreement to remain in force for a term of five years.

Respectfully, NEWTON WATER BOARD,

By J. C. WHITNEY, Clerk.

Subsequently we addressed two communications to the water board of Wellesley, asking for a definite proposition, but have received no reply to either.

We have also prepared for your consideration a plan for an independent supply. The fifteenth day of March, the water board employed Mr. Louis E. Hawes, a civil engineer who has had experience in many towns and cities in New England in putting in water works, and your comissioners have been well satisfied with his services. And we have used the data furnished by the report of the committee of 1887 as far as possible.

Having, as we think, made a very thorough investiga-

tion of the subject of water supply for the town, and after considering the question in all its bearings, we feel it incumbent upon us to recommend an independent system that shall comprehend our wants, viz., a supply of good, pure water for domestic use and quantity sufficient for fire purposes.

The water act provides two ways of adjusting the financial part of the plan. One by establishing a sinking fund by appropriating to such fund annually a sum sufficient with the accumulations thereof to pay the principal of the loan at maturity, and the other by making such annual proportionate payments as will extinguish the same within the time prescribed in the act. Your commissioners would recommend the latter method. We would suggest making the annual proportionate payments small amounts for the first ten years, after which the income from the works would warrant making larger proportionate payments for the remaining twenty years.

And, in view of all the facts, we recommend for your adoption the source of supply and system, as outlined in the report of the engineer, Mr. Louis E. Hawes, which follows this, and to which we ask your careful consideration.

All of which is respectfully submitted.

JAMES MACKINTOSH,
JOHN MOSELEY,
JOHN M. HODGE,

Water Commissioners."

May 15, 1890.

The following is the closing part of the report addressed to the water commissioners by the engineer:

"Summary.

a. In comparing the advantages and disadvantages of a supply from the works of an adjoining city or town with those of a supply from an independent source, it is found that while the first cost of construction in the former case might be a little less, the fire service would not be as high and therefore not as satisfactory, and the possibility of the works becoming self-supporting less on account of the extra cost for the water, to what they would be if the latter case were adopted.

b. By a careful study of the possibilities for an independent supply within Needham limits, it is found that of the three main water sheds of the town, distinct from the immediate slopes of the Charles river, the Colburn Brook water shed offers the best inducements for a supply of pure water; and of the river slopes no place is found where there is an interior water shed of sufficient area near enough to the river to admit of its utilization in connection with a filter gallery by the river, excepting in the Dedham avenue locality.

Therefore this locality is recommended as a source of water supply for Needham on the grounds of purity, permanence and economy, and the Colburn Brook water shed should be utilized first as promising the better quality of water.

System Proposed.

A large collecting well, 22 feet in diameter and 22 feet deep, excavated at the Colburn springs, stoned and bricked up in such a manner as to exclude surface water, thus insuring the entire draught to be from the water bearing stratum below, roofed over and graded about is to be connected with pumping machinery located in a brick station,

from which the water will be forced through a 10-inch cast iron main laid in Dedham avenue in a straight line to Needham common; thence by way of Highland avenue and Morton street to the top of Ryan's Hill, where it will enter a wrought iron reservoir or stand pipe.

The pumping station is to be built of brick, of sufficient size to accommodate two pumps and two boilers, will have a chimney high enough to furnish draught at all times, and will be a substantial building without ornamentation. The pumping engines will be of the compound condensing type, two in number, and each capable of doing the entire work. It is advisable to have two as daily pumping will be required, and if an accident should happen to one no delay will be occasioned, which might otherwise prove embarassing. The street mains are to be of cast iron, from six to twelve inches in diameter, one short line only of four inch being used to complete a circuit. There will be 7.7 miles laid in the streets shown in the schedule of piping appended, and extensions can be made in outlying localities as the needs become apparent. At frequent intervals along the lines are situated 57 hydrants, each having two 2½-inch nozzles and 6 inch connection; in addition to which will be two large post hydrants, having four 2½-inch nozzles, with independent shut-offs and 8 inch connection, located, one at Needham common and one at Highlandville common. There will also be stop-gates, for the purpose of isolating any section of piping needing repairs. The sizes of the leading mains are so proportioned from the reservoir that with a pressure from high water elevation 350 feet above mean low tide in Boston harbor, they are capable of furnishing at Needham or Highlandville commons water enough for six 1⅛-inch fire streams or eight 1-inch, or ten ⅞-inch streams doing excellent service and maintain an efficient pressure at the hydrants while the streams are flowing and domestic consumption continues.

The reservoir is to be of wrought iron 25 feet in diameter and 85 feet high, having a roof and holding when full to high water mark 3 feet below the top, 301,000 gallons.

The top of Ryan's Hill has been selected as the most suitable place for its erection on account of the elevation and central location. Dewing's Hill would be still more central, but is not of sufficient height, while Bird's Hill is too far away and higher than necessary, as is also Pope's Hill. The reason for proposing an iron reservoir instead of an earthen one, is because spring water deteriorates when exposed to light in an open reservoir, and an earthen reservoir covered with masonry is an expensive affair, the 2,000,000 gallon one about to be built in Newton being estimated to cost $51,750.

High water in the reservoir will be 350 feet above mean low tide in Boston harbor, 84.2 feet above Newton's present reservoir, 30 feet above high water proposed for their new reservoir and 26 feet higher than the Wellesley reservoir.

This will give a head at Highlandville common of 164 feet or 71 lbs. pressure, and at Needham common of 182 feet or 79 lbs. pressure per square inch. Other differences of elevation will be found in the table appended, and as will be seen by inspection, provision is made for a first class fire service in the highest populated parts of the town.

Following is an estimate of cost of the system above described, based upon current prices and the best of material of the various kinds. There are also appended a schedule of piping and a list of comparative elevations.

Yours respectfully,

LOUIS E. HAWES,

Civil Engineer.

75 State St., Boston, May 5, 1890."

(For full statement of engineer, together with schedule of piping and a list of comparative elevations, see report on file.)

Art. 2. Voted that the report of the Water Commissioners be accepted, and the system recommended, adopted.

Voted that the water commissioners are instructed to proceed to the construction of the necessary works for the introduction of water into the town of Needham, according to the report of Louis E. Hawes, Civil Engineer, subject to such changes as the said board may deem best for the interest of the town.

Art. 3. Voted that the board of water commissioners in pursuance of the provisions of Chapt. 107 of the Acts of 1888 be authorized and directed to issue bonds to the amount of seventy-five thousand dollars. Said bonds to bear on their face the words "Needham Water Loan," to bear interest at the rate of four per centum per annum, payable semi-annually on the first days of March and September in each year, to be of the denominations of five hundred and one thousand dollars, in such proportions as the water commissioners may determine. To be dated Sept. 1, 1890. To be signed by the treasurer of the Town and countersigned by the water commissioners. To be payable in such manner and at the expiration of such periods that five hundred dollars of said loan be paid in each of the years from 1891 and 1900 inclusive, thirty-five hundred dollars of said loan to be paid in each of the years from 1901 to 1920 inclusive.

Voted that the water commissioners are authorized to sell said bonds at public or private sale or pledge the same for money borrowed for the purposes of the act of the Legislature therein before mentioned and that they are also hereby authorized and directed on behalf of the Town and in its name to do all other acts and things necessary and proper to carry out the purposes of this vote and the said act of the Legislature, and in accordance with the provisions of the same. (Passed unanimously).

Voted that the proceeds of the sale of the seventy-five thousand dollars of bonds authorized by the Legislature and a vote of the town be appropriated for the construction of water works and the necessary expenses attending the same.

Voted that the town treasurer borrow such sums of

money as may be needed with the approval of the water commissioners in anticipation of the issuing of the Water Loan Bonds and that he pay all orders made upon him by the water commissioners. (Passed unanimously).

Voted that the water commissioners are hereby instructed to take by purchase or otherwise land in the Colburn Spring valley, water and the water rights connected therewith, belonging to the heirs of Emily E. Colburn and others, also land for a stand-pipe on Ryan's Hill and such other lands as the commissioners may deem necessary.

Art. 4. Voted that Art. 2 of the by-laws of the town relating to truants, adopted July 9, 1887 be hereby repealed and that the following article be substituted in place thereof:

Art. 2. Any child between the ages of seven and fifteen years residing in said town who is an habitual truant or who may be found wandering about in the streets or public places of said town, having no lawful occupation or business, not attending school and growing up in ignorance, or who persistently violates the rules and regulations of the common schools shall be committed to the Norfolk County Truant School in Walpole, in the County of Norfolk, for a term not exceeding two years.

Voted that the town clerk be instructed to obtain from the proper authority, approval of the foregoing amendment.

After the articles in the warrant had been disposed of the following resolution offered by E. H. Bowers Esq. was adopted: viz:—

"Resolved, that it is the sense of this town meeting that the selectmen be authorized to employ counsel to act and advise with them in regard to the taking of land in the

town by the City of Newton, as affecting the interests of the town and its inhabitants."

Voted that this meeting be dissolved.

Attest: CHARLES C. GREENWOOD,

Town Clerk.

Warrant for Town Meeting July 1, 1890.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To WILLIAM WRAGG, a Constable of the Town of Needham, in said County, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Needham, qualified to vote in elections and in town affairs, to meet at the Town Hall in said town, on TUESDAY, the FIRST DAY of JULY next, at seven-thirty o'clock in the afternoon, then and there to act upon the following articles, viz:

ARTICLE 1. To choose a moderator to preside in said meeting.

ART. 2. To see if the town will vote to provide better and additional means of ventilation for the Kimball School building and what sum of money it will appropriate therefor.

And you are directed to serve this Warrant by posting attested copies thereof in not less than twenty public places in said town at least seven days before the time of said meeting.

Hereof, fail not, but make due return of this Warrant

with your doings thereon, unto our Town Clerk on or before said day and time.

Given under our hands at Needham, aforesaid, this sixteenth day of June A. D. Eighteen hundred and ninety.

THOMAS SUTTON,
ARTHUR WHITAKER,
AARON TWIGG,
} *Selectmen of Needham.*

OFFICER'S RETURN.

Needham, Mass., June 21st, 1890.

By virtue of the within warrant, I have this day notified and warned the inhabitants of the town of Needham, as within directed, by posting true copies of this warrant, by me attested, in at least (20) twenty public places in said town at least seven days before the time for holding said meeting.

WILLIAM WRAGG,

Constable of Needham.

A true copy—attest : CHARLES C. GREENWOOD,

Town Clerk.

Record of Town Meeting July 1, 1890.

A meeting of the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, was held pursuant to the foregoing warrant in the Town Hall in said town on Tuesday, July 1, 1890.

Article 1. Thomas Sutton was nominated and chosen moderator.

Article 2. Voted that the boards of selectmen and school committee be authorized to provide better and additional means of ventilation for the Kimball School building, aud that the sum of $1500 be appropriated therefor, and that the funds be taken from the "School Fund."

Voted that this meeting be dissolved.

Attest: CHARLES C. GREENWOOD,

Town Clerk.

Warrant for State Election, Nov. 4, 1890.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To GEORGE ADAMS, a Constable of the Town of Needham, in said County, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the town of Needham, qualified to vote in state elections, to meet at the Town Hall in said town, on TUESDAY, THE FOURTH DAY OF NOVEMBER next, at seven o'clock in the forenoon, then and there to give in their votes for the following State and County officers, viz:

Governor; Lieutenant-Governor; Treasurer and Receiver-General; Secretary; Attorney-General; and Auditor of the Commonwealth.

Councillor for the Second Councillor District.

Senator for the Second Norfolk District.

Representative to the General Court for the Ninth Norfolk District.

Representative to Congress for the Ninth Congressional District.

County Commissioner for three years.

District Attorney to fill vacancy.

And to vote "yes" or "no" upon the following amendments to the Constitution:

Article of Amendment to prevent the disfranchisement of voters because of a change of residence within the Commonwealth.—No person otherwise qualified to vote in elections for governor, lieutenant governor, senators and representatives, shall, by reason of a change of resi-

dence within the Commonwealth, be disqualified from voting for said officers in the city or town from which he has removed his residence, until the expiration of six calendar months from the time of such removal.

Article of Amendment relative to soldiers and sailors exercising the right of franchise.—Article twenty-eight of the amendments of the Constitution is hereby amended by striking out, in the fourth line thereof, the words "being a pauper," and inserting in place thereof the words: —receiving or having received aid from any city or town,—and also by striking out, in said fourth line, the words "if a pauper," so that the article as amended shall read as follows-—Article XXVIII. No person having served in the army or navy of the United States in time of war, and having been honorably discharged from such service, shall be disqualified therefor on account of receiving or having received aid from any city or town, or because of the non-payment of a poll-tax.

All to be voted for on one ballot; and the polls may be closed as early as four o'clock in the afternoon of said day.

And you are directed to serve this Warrant by posting attested copies thereof in not less than twenty public places in said town at least seven days before the time of said meeting.

Hereof, fail not, but make due return of this Warrant with your doings thereon, unto the Selectmen on or before said day and time.

Given under our hands at Needham, aforesaid, this twentieth day of October, A. D. Eighteen hundred and ninety.

THOMAS SUTTON,
ARTHUR WHITAKER,
AARON TWIGG,
Selectmen of Needham.

OFFICER'S RETURN.

Needham, Nov. 1, 1890.

NORFOLK, ss.

By virtue of the within warrant, I have notified and warned the inhabitants of the within named town of Needham, to meet as within directed, on Tuesday, the 4th day of November, 1890, by posting true copies, by me attested, in twenty public places within said town of Needham, seven days before said date of meeting.

GEORGE ADAMS,

Constable of Needham.

A true copy—attest: CHARLES C. GREENWOOD,

Town Clerk.

Record of State Election, Nov. 4, 1890.

In pursuance of the foregoing warrant the inhabitants of the town of Needham qualified to vote in elections met in the Town Hall in said town on Tuesday the fourth day of November in the year one thousand eight hundred and ninety, it being the Tuesday next after the first Monday in said month, and were called to order at seven o'clock in the forenoon by Thomas Sutton, chairman of the board of selectmen, who read the warrant calling said meeting and the return thereon of the officer who warned and notified the inhabitants.

The selectmen having appointed T. Frederick Peabody and C. Atherton Hicks as inspectors and Walter Hewett and George A. Adams as deputy inspectors, they were sworn to the faithful discharge of their duties by the town clerk.

The package containing the "first set" of ballots received from the secretary of the Commonwealth was then delivered by the town clerk to the chairman of the selectmen, who publicly opened the package and delivered the ballots to the inspectors acting as ballot clerks. Cards of instructions were then posted in each of the voting compartments which had been provided as required by Section 21 Chap. 413 of the acts of 1889. Cards of instructions and the specimen ballots were posted in the hall outside of the guard rail in accordance with the provisions of said act.

The "Standard Cancelling Ballot Box" furnished by the Commonwealth for use at elections was then publicly opened and shown to be empty, and was examined by the selectmen

and town clerk and ascertained to be empty. The box was then locked and the key of the lower part delivered to George Adams, the officer in attendance at the election.

The polls were then opened for the reception of ballots and were kept open until thirty-four minutes past 4 o'clock in the afternoon when they were declared closed.

At the opening of the polls the ballot box register indicated 0, at the close 483.

The names on the list of voters which had been checked were then audibly counted by Arthur Whitaker, one of the selectmen, and the number found to be four hundred and eighty-three. (483). The ballots were then taken from the box and audibly counted one by one, by Thomas Sutton, chairman of the selectmen, who announced the whole number of ballots cast to be four hundred and eighty-three. (483).

The selectmen appointed T. Frederick Peabody, C. Atherton Hicks, George A. Adams and Walter Hewett as tellers to aid them in assorting and counting the votes and they were sworn to the faithful discharge of their duties by the town clerk.

The selectmen, town clerk and the tellers then proceeded to canvass the votes given in, which were assorted, counted and recorded and declaration thereof made as required by law, and were for the following national, state and county officers and for or against two articles of amendment to the constitution, viz:

For Governor.

Four hundred and seventy-six.

John Q. A. Brackett of Arlington had two hundred and forty-six.

William E. Russell of Cambridge had two hundred and four.

John Blackmer of Springfield had twenty-six.

For Lieutenant Governor.

Four hundred and fifty-five.

William H. Haile of Springfield had two hundred and fifty-six.

John W. Corcoran of Clinton had one hundred and eighty.

George Kempton of Sharon had nineteen.

For Secretary of the Commonwealth.

Four hundred and fifty.

William M. Olin of Boston had two hundred and fifty-three.

Eldridge Cushman of Lakeville had one hundred and seventy-nine.

George D. Crittenden of Rockland had eighteen.

For Treasurer and Receiver General.

Four hundred and fifty-one.

George A. Marden of Lowell had two hundred and fifty-five.

Edwin L. Munn of Holyoke had one hundred and seventy-eight.

William H. Gleason of Boston had eighteen.

For Auditor.

Four hundred and seventeen.

Charles R. Ladd of Springfield had two hundred and nineteen.

William D. T. Trefry of Marblehead had one hundred and seventy.

Augustus R. Smith of Lee had twenty-eight.

For Attorney General.

Four hundred and forty-seven.

Albert E. Pillsbury of Boston had two hundred and fifty-three.

Elisha B. Maynard of Springfield had one hundred and seventy-six.

Wolcott Hamlin of Amherst had eighteen.

For Representative in Congress—Ninth Congressional District.

Four hundred and sixty-two.

John W. Candler of Brookline had two hundred and forty-five.

George Fred. Williams of Dedham had two hundred and two.

Melvin H. Walker of Westborough had fifteen.

For Councillor—Second Councillor District.

Four hundred and thirty-eight.

Arthur W. Tufts of Boston had two hundred and forty-one.

Charles T. Duncklee of Brookline had one hundred and seventy-five.

Charles L. Smith of Norwood had twenty-two.

For County Commissioner.

Four hundred and forty-three.

George W. Wiggin of Franklin had two hundred and forty-one.

William H. White of Brookline had one hundred and eighty-four.

Joshua B. Hanners of Walpole had eighteen.

For District Attorney—Southeastern District.

Four hundred and thirty-two.

Alonzo B. Wentworth of Dedham had two hundred and forty.

Harvey H. Pratt of Abington had one hundred and ninety-two.

For Senator—Second Norfolk District.

Four hundred and fifty.

George Makepeace Towle of Brookline had two hundred and thirty-four.

Frank Smith of Dover had one hundred and ninety-nine.

Erastus L. Metcalf of Franklin had seventeen.

For Representative in General Court—Ninth Norfolk District.

Four hundred and forty-three.

N. Frank Harding of Medfield had two hundred and forty-one.

Edward M. Bent of Medfield had one hundred and seventy-eight.

Freeman Phillips of Wellesley had twenty-four.

Amendment to the Constitution to Prevent the Disfranchisement of Voters because of a Change of Residence within the Commonwealth.

Yes, two hundred and ten.

No, sixty-seven.

Amendment to the Constitution Relative to Soldiers and Sailors Exercising the Right of Franchise.

Yes, one hundred and ninety-five.

No, fifty.

In voting no person was given a ballot by the ballot clerks until his name had been found upon the list of voters and checked, and no person was allowed to vote until his

name had been checked upon the list in the charge of the selectmen.

The returns of votes were signed by the selectmen, attested by the town clerk, and sealed up in open town meeting as required by law, and delivered to the town clerk. The ballots cast were then sealed up in an envelope by the selectmen, who endorsed upon the envelope for what offices the ballots were cast, the date of the election, and a certificate that all the ballots cast and none other are contained in said envelope.

The ballots, sealed as aforesaid, were placed in the custody of the town clerk. The list of voters which had been used at the polls by the selectmen was sealed up and retained by them. The spoiled ballots and those not distributed, together with the check-list used by the ballot clerks, and certified by them to be such, were secured in an envelope, sealed, and delivered to the town clerk.

The meeting was then declared dissolved by Thomas Sutton, chairman of the selectmen.

Attest: CHARLES C. GREENWOOD,

Town Clerk.

NORFOLK, ss.

The clerks of the towns of Medfield, Needham, Dover, Wellesley and Millis in said county, comprising the Norfolk Representative District, Number Nine, at their meeting held at the Town Hall in said Dover on Friday the fourteenth day of November A. D. 1890, (said day being the tenth day following the election), made out under their hands the following complete return of all votes cast for a Representative to General Court, in said District, namely:

Whole number of votes, twelve hundred and fifty-six.

N. Frank Harding of Medfield had six hundred and forty-one.

Edward M. Bent of Medfield had five hundred and two.

Freeman Phillips of Wellesley had one hundred and thirteen.

	In Medfield.	In Needham.	In Dover.	In Wellesley.	In Millis.	Total.
N. Frank Harding had	148	241	42	153	57	641
Edward M. Bent had	88	178	39	151	46	502
Freeman Phillips had	20	24	12	49	8	113
	256	443	93	353	111	1256

Attest:

Stillman J. Spear, Town Clerk of Medfield.

	332 00

No appropriation.

Total amount of Orders drawn on the Treasurer,	**$18,809.61.**

ANNUAL

REPORT OF THE SELECTMEN

For the Year 1890.

Highways.

Knowing that the work of this department for the year would be of unusual importance, we reappointed C. H. Dewing as superintendant of streets, convinced that under his supervision the work would be done in a thorough and efficient manner. The principal jobs have been Hunnewell street, Nehoiden street and Great Plain avenue. Hunnewell street for many years has been in a most deplorable condition, in fall and spring. We have remedied the defects, and have established a true grade from the bridge to the foot of the street. We have expended a considerable amount of money on Nehoiden street, but we feel that the improvement amply repays the cost.

That part of Great Plain avenue known as the "Causeway" was in a very bad shape, being narrow, rough and muddy. At one point the grade was very steep, causing great trouble to those who had heavy teaming to do. We have widened and smoothed the road, and by cutting down the hill and filling up the hollows, have so improved the grade that we feel it will be satisfactory to all.

We have done considerable work in the south-western section of the town, extending to the Dover and Wellesley lines. This section of the town has been much neglected, and we deemed it necessary to give it a thorough cleaning up and repairing.

We have also attended to general repairs where most needed.

Wright's wall on Central avenue is still in an unfinished condition. It should be completed during the coming year.

We would suggest that the town consider the advisability of purchasing the "Odd Fellows' lot." It must be apparent to all that in the near future Great Plain avenue must be widened, and as the land for this purpose must be taken from the north side of the avenue, we believe it would be economy for the town to acquire by purchase now, what they might have to seize in the future.

The town would thus control and be able to protect and improve a piece of property that is unsightly and a source of danger to persons passing to the depot. It could be utilized as a location for a drinking fountain out of the way of public travel on the avenue, and so near as to be very convenient, and in the future would be an admirable situation for a public building.

In accordance with the vote of the town we removed the obstructions at Oak street and replanked the crossing. The crossing has since remained open.

Fencing.

We have expended a large amount in fencing. The renewing of old fences in some places, and the entire lack of fences in others demanded the outlay.

Sidewalks.

The principal outlay on sidewalks has been on Hunne-

well and Nehoiden streets. New sidewalks have been built, the abutters paying half the cost. For detailed statement see our financial report.

Concrete Sidewalks.

The concrete sidewalks in front of the estates of Wm. Carter, J. J. Whetton and E. J. Eaton, have been laid, they paying half the expense. It is a great improvement. We heartily recommend a larger appropriation for this purpose for the ensuing year.

Street Lights.

The contract for lighting was awarded to W. F. C. Balen. As no complaints have been made we judge he has given general satisfaction.

Poor.

Two of the inmates in the Wellesley almshouse have died during the year, viz: Martha Moody and William Timmins. There are three new inmates, John Kingsbury, wife and child.

Agreeable to his promise, Mr. Charles O'Brine has fully reimbursed the town for his expenses while in the Taunton hospital. He has shown a most commendable spirit.

The inmates of state institutions are same as last year.

The only new cases for the year are Mrs. Henry Patrick and family.

Water Works.

We take this opportunity to congratulate the people of Needham on the introduction of water for domestic and fire purposes. It is without doubt the greatest enter-

prise that the town has ever undertaken. It will insure comfort to our people and will tend to the development of our industries. It will enter our homes and like the blessed sunlight will give its blessing wherever it goes, and as "The merciful man is merciful to his beast," we would suggest that the selectmen be empowered to erect two or more drinking fountains in different sections of the town.

APPROPRIATIONS.

The joint meeting of the selectmen, school committee and board of assessors, selected James Mackintosh, John Moseley, A. E. Miller, George Adams, Curtis McIntosh, Charles A. Low, Thomas Abraham, Edward Hill and G. W. Tisdale to act with them as a committee on appropriations.

A public meeting was held in the selectmen's room February 6th, 1891.

The committee organized by the choice of Thomas Sutton as chairman, and Aaron Twigg as secretary. After all present had had an opportunity to present their cases, and express their views, the meeting adjourned to Tuesday evening, February 10th, 1891.

At the adjourned meeting the committee voted to recommend the following appropriations for the ensuing year:

Highways,	$5,500
Sidewalks,	600
" concrete, and edgestones, where abutters pay one-half,	300
Schools,	10,300
School Incidentals,	600
" text books and supplies,	700
Painting and repairing Avery school house,	300
Poor,	2,700
Printing and stationery,	500
Snow,	200

Salaries,	2,300
Incidentals,	800
General fire department expenses,	800
New hose,	1,500
Hose wagons,	600
Fire alarm boxes, one corner of Great Plain ave. and Central ave.; one at the Bicycle factory providing the company pay $25 towards the same,	350
Water interest and expenses,	2,500
Hydrant service,	1,500
Heating, lighting, care and rent of town hall,	800
Memorial day,	150
Street lights,	1,150
Interest,	500
Abatement of taxes,	200
Police,	350
Liquor law,	100
Chief engineer,	100
Public library,	300 and dog tax.
Total,	$35,700

The committee further recommend that the appropriation for ventilating the Kimball schoolhouse be continued.

Also recommend that payment of note for Great Plain avenue repairs be deferred for one year.

Also voted, to ask the town to instruct the water commissioners to erect two or more drinking fountains in different parts of the town.

Also voted, to ask the town to adopt a code of by-laws; E. J. Eaton and Emery Grover were appointed a committee to prepare article for town warrant.

AARON TWIGG, Secretary.

TOWN PROPERTY.

Kimball schoolhouse, furniture and land,	$16,000 00

CHIEF ENGINEER'S REPORT

For 1890.

The losses by fire this year have been very small as compared with other years, the first being the barn owned by Mrs. Poggi, April 14, which was found to be on fire, but by the promptness of Niagara Engine Co. No. 1, was extinguished with but little loss.

July 23 the factory owned by Wm. Carter, situated on the east side of Highland avenue, was burned to the ground.

Both engine companies were disbanded on Jan. 1, 1891, and two hose companies have been formed, but they will have to work under great disadvantages until new hose and two hose wagons can be purchased for their use. We have 1000 feet of hose purchased last year, and the board of engineers would recommend the purchase of two hose wagons and 2000 feet more hose. With these additions and the water we have at our command we will be prepared to do good service in time of fire.

GEORGE ADAMS,
Chief Needham Fire Dept.

GEO. E. JONES, Secretary.

BOARD OF HEALTH REPORT.

The board of health submits the following report of its doings for the year ending Dec. 31, 1890:

Contagious and Infectious Diseases.

Of the contagious and infectious diseases, diphtheria, scarlet fever, typhoid fever and measles prevailed to a slight extent during the year, but at no time did they become epidemic. While there has been no change in the relative number of cases of scarlet fever from last year (many cases being reported as "scarlatina" but all being classed as scarlet fever) the number of cases of typhoid fever has increased by two, and that of diphtheria one, which terminated fatally, (there being no case in 1889).

The following table will show the total number of these diseases reported for the year:

Scarlet Fever,	20
Typhoid Fever,	3
Measles,	2
Diphtheria,	1
Total,	26

The total number of meetings held by the board was twenty-five (25).

Fifty (50) complaints were received. Twenty-five (25) letters written. Thirty (30) nuisances have been investigated, the most of which have been abated.

Swine.

As in previous years the keeping of swine in the town is the chief source of complaint, and your board has found it necessary to perform the unpleasant duty of appealing to the Court to abolish two piggeries after all other measures had failed, and unless other parties in the same employment use more care in conducting this branch of their business, future boards will be obliged to pursue the same stringent measures to protect the public from this nuisance. For the farmer this pursuit is profitable, but to the growth of the town it is detrimental: the interest of both is mutual.

Plumbing.

With the introduction of water from the new system more attention will have to be paid to this subject in the future.

One great cause of complaint is the unsanitary method of plumbing of dwellings, many being without proper traps to sinks and closets, thereby letting foul and poisonous gases enter the rooms to endanger the lives of the occupants.

In the plumbing of dwellings the best and most improved methods should be required, and great care should be observed in the proper distribution of vaults and cesspools.

More attention is being given by our citizens to the subject of hygiene than heretofore, but there remains much room for improvement.

The board would recommend that the town at its annual meeting adopt a suitable by-law or by-laws regulating the plumbing of buildings, which will place the same under the control of the board of health or of an inspector of buildings appointed by the board for that purpose.

CHAS. H. CROWLEY,
CHAS. E. STANWOOD, } *Auditors.*

COMMISSIONERS' REPORT.

The Water Commissioners would respectfully submit the following report on the construction of the water works plant:

At a meeting held May 28, 1890, the town voted that the preliminary report of the board be accepted and the system recommended adopted. That report was distributed at every dwelling house in town and needs no repetition here. At the same meeting it was voted "that the commissioners be instructed to build the necessary works for the introduction of water according to their report and the report of Mr. Louis E. Hawes, engineer, subject to such changes as the commissioners may deem best for the interest of the town." Under Art. 3 of the warrant it was voted that the water commissioners in pursuance of the provisions of chapter 107 of the acts of 1888 be authorized and directed to issue bonds to bear on their face the words "Needham Water Loan," to bear interest at the rate of four per centum per annum payable semi-annually on the first days of March and September in each year, to be of the denominations of five hundred and one thousand dollars, in such proportion as the commissioners may determine, to be dated September 1, 1890, to be signed by the treasurer of the town and countersigned by the commissioners, to be payable in such manner and at the expiration of such periods, that five hundred dollars of said loan be paid in each of the years from 1891 to 1900 inclusive, thirty-five

hundred dollars of said loan be paid in each of the years from 1901 to 1920 inclusive. Voted that the proceeds of the sale of the bonds, $75,000.00, authorized by the legislature and the town's vote be appropriated for the construction of the water works and the necessary expense attending the same. The town treasurer was authorized to borrow with the approval of the commissioners in anticipation of issuing the water loan bonds and to pay all orders made upon him by the commissioners. Voted that the commissioners are hereby instructed to take by purchase or otherwise land in Colburn Spring Valley, water and water-rights connected therewith belonging to the heirs of Emily E. Colburn, and others. Also land for stand-pipe on Ryan's Hill, and such other lands as the commissioners may deem necessary.

By the provisions of the vote taken under Art. 2 the commissioners made a contract on the sixth day of June 1890, with Louis E. Hawes, civil engineer, for the sum of $2880.00 to prepare all working plans, specifications and contracts, furnish all instruments, assistants and inspectors and to personally superintend construction, including laying out the work, attending to its proper execution, the fulfilment of contracts, and making locations of underground structure for permanent record. Also to prepare location, sketches and a plan of the complete system, for use in showing the position of hydrants, gates, branches etc., etc., necessary for their operation and future connection.

Pipe.

On the fifth day of June the commissioners advertised for proposals to furnish the following cast iron pipe F. O. B. at the freight station in Needham. 4,440 lineal feet of 12-in., 11,208 feet of 10-in., 11,844 feet of 8-in., 12,240 feet of 6-in., and 336 feet of 4-in., with special castings. June 18,

the contract was awarded to the Gloucester Iron Works at the following prices:

12-inch	pipe,	$28 32	per ton of	2,240 lbs.
10 "	"	29 10	"	"
8 "	"	29 62	"	"
6 "	"	29 62	"	"
4 "	"	29 62	"	"
Specials,		53 50	"	"

Hydrants and Valves.

On June 9, the board advertised for proposals for hydrants and valves and on June 16 received several proposals. On June 18 the contract was awarded to the Ludlow Valve Manufacturing Co., for the sum of $3,007 67.

Stand Pipe.

The commissioners took land on Ryan's Hill under the provision of the act of the legislature and have not as yet settled with the Ryan heirs.

June 16 the excavation for the stand pipe was commenced. The excavation and blasting of the stone was done by the day. The contract for carting the stone was awarded to James E. Cahill, the contract for masonry to Wm. G. Hart of Needham, the 125 barrels of cement to Waldo Bros. of Boston, the teaming to Atkinson's express of Highlandville. The board advertised for proposals to construct the stand pipe, and August 13 received proposals. On August 27 the contract was awarded to E. Hodge & Co., of East Boston for the sum of $7,440 00 and was carried to completion with great promptness.

Pumping Station and Coal Shed.

The land, a little over one acre, for the erection of the

station was purchased of Dr. E. G. Leach for $288 75. On the 28th day of July proposals were received for building the station, including chimney and coal shed as follows:

Gooch & Pray, Malden,	$3,849 00
L. L. Washburn, Brockton,	4,021 50
R. L. Dewing, Brookline,	4,800 00
Horace James, Brookline,	4,974 00

The contract was awarded to Messrs. Gooch & Pray, who completed the same with dispatch and satisfactory to the commissioners.

The Colburn Spring and Supply Well.

The source of supply adopted by us is located on the land belonging to the heirs of Emily E. Colburn. It is the same as recommended by us at the meeting of May 28, 1890. The conditions of the Colburn estate were such that it was necessary for us to take the land as authorized by our water act. Your commissioners decided that it would be best to take 15 acres of land. The land is swampy and was covered with a dense growth of brush and of little value for any other purpose, and so situated that the taking would not impair the value of the remainder of the farm, and remote from any highway.

The water board met Mr. George W. Colburn, who has charge of the estate, before and after the taking. We were unable to come to terms of settlement. There have been five appraisals of the property within two years by boards of three men. The said appraisals would not warrant the commissioners to pay the sum mentioned by Mr. Colburn at his last meeting with the water board, viz: twenty-five hundred dollars. It was necessary to build a road from the pumping station to the supply well, and on the 8th day of July the contract was awarded to C. H. Eglee of Flushing, N. Y., for $200.00.

Constructing the Supply Well.

July 17th your commissioners received the following proposals:

Charles P. Horton of Somerville,	$3,100.
L. K. Marston, South Boston,	$3,348.
Horace Sias, Boston,	$4,275.

The contract was awarded to L. K. Marston as Mr. Horton did not deposit a certified check as required by the commissioners. Mr. Marston forfeited his deposit of one hundred dollars to the town treasurer, in failing to sign the contract and give the bond required, and the contract was finally awarded to Charles P. Horton of Somerville, at the above figures, on the second day of August, who proceeded at once with its execution, and continued the work until its completion. The conical roof was built by Mr. Frederick D. Sutton of this town, and is well made.

Your commissioners would recommend that sometime in the near future the sides of the road from the pumping station to the supply well be nicely and smoothly graded and seeded down, and the same around the supply well. It would be a source of satisfaction to our own people when they visit their source of water supply, and creditable to the town when it is visited by people from other places.

Pipe Laying.

July 8th the contract was awarded to Chas. H. Eglee of Flushing, New York, at the following prices:

12-inch suction pipe,	60 cents per foot.
12-inch main pipe,	33 cents per foot.
10-inch main "	28 cents per foot.
8-inch " "	24 cents per foot.
6-inch " "	21 cents per foot.
4-inch " "	19 cents per foot.

Setting gates and boxes all sizes, $1 00 each.
Setting hydrants, $1 00 each.
Earth excavation, 50 cents per cubic yard.
Rock excavation, $3 00 per cubic yard.

Mr. Eglee commenced trenching for pipe laying August 13th, and laying the same August 14th. The work was prosecuted until the system was put in, with the exception of a few hundred feet on Chestnut street, which the commissioners decided to postpone until spring, owing to the dangerous condition it would leave the street during the winter. The contractor would undoubtedly have completed the entire system were it not for the unusually wet weather during September and October. We commend the contractor for his promptness and efficiency and for the excellent management of his help. It is rare that a contract like that of piping a town for a water system is carried on with so little disturbance to its citizens.

Pumping Plant.

The 23d day of July your commissioners received the following proposals for pumps and boilers:

Geo. F. Blake Manufacturing Co., $6,500.
Deane Pump Works, $7,700.
Davidson Pump Co., $8,700.

The contract was awarded to the Geo. F. Blake Manufacturing Co. as above.

Issuing Bonds.

The bonds were issued in denominations as follows: 30 bonds of five hundred dollars each, maturing one each year for thirty years; 60 bonds of one thousand dollars each, maturing three each year from 1901 to 1920 inclusive.

These bonds are dated Sept. 1, 1890, and are to bear interest at four per cent. per annum, payable semi-annually on the first days of March and September, with the Boston Safe Deposit and Trust Co., in the city of Boston. After consultation with dealers in municipal bonds the commissioners sold the whole issue, $75,000, to Messrs. Barnard & Stanwood of Boston, at 3½ per cent. premium and accrued interest, the same to be cashed as the commissioners needed the money to pay the contractors. Your board appreciate very highly the commendable fidelity of Messrs. Barnard & Stanwood to cash the bonds during a very trying money market. The proceeds of the sale of bonds are as follows: $75,000; premium, $2,625; accrued interest at 4 per cent.

Temporary Loans.

July 25th we borrowed $1,200, Aug. 6th, $2,000, Aug. 29th, $12,000, of the state treasurer at four per cent, and also $3,900 from the town. These sums were borrowed for a short time and paid from the proceeds of the sale of bonds.

Land and Rights of Way.

The lands and rights of way were all taken, with the exception of that for the pumping station, by authority of the water act, and by the vote of the town, and a description was filed of the same in the registry of deeds, Dedham, as provided. On the 18th of August your commissioners called three men, one from Wellesley, one from Dover, and one from Needham, to appraise the different lots of land taken. It is a singular coincidence that the appraisers' valuation and that of your commissioners were almost identical, the former not knowing the valuation set by the commissioners.

Since the taking a settlement has been effected with Mr.

George O. Kingsbury for the right of way over his land.

Service Pipes.

The contract for putting in the service pipe was awarded to Mr. C. H. Eglee, at the following price: for ¾-inch lead, 43 cents per foot; cement lined iron, 23 cents per foot. We have charged a small advance on these prices.

Some of the applications for water were made too late to be put in during the season of 1890.

Your board appointed Mr. John M. Hodge as superintendent and engineer, November 1, at $70.00 per month, he to furnish his assistants and horse.

On the 12th day of December the constructing engineer turned the works over to the commissioners, after close application and personal supervision of the work for over six months. The water board are pleased to say that Mr. Louis E. Hawes has completed the system that was recommended to the town by them in a manner that is very creditable to him and satisfactory to us. The cost of the works is very close to the estimate made in the preliminary report.

Suction Pipe.

The weather at the time of laying the suction pipe was unfavorable, being cold and rainy a great part of the time, and to keep the water out of the trenches, we were obliged to use Mr. C. P. Horton's steam pump. We have experienced some trouble with sand in the pumps, which may have entered the pipe and become frozen previous to laying, and not removed at the time of laying. It may possibly be caused by a bad joint. We have notified Mr. Eglee and he will make an examination of the suction as soon as the weather will admit, which is also required under his contract.

Your commissioners recommend a few extensions this year. The present system should be perfected and the income established before many extensions are made. To prevent unreasonable extensions being made, it would be best for the town to instruct its water commissioners to make only such extensions where the income would pay at least six per cent. upon the outlay.

JAMES MACKINTOSH,
JOHN MOSELEY,
JOHN M. HODGE.

Needham, Feb. 9, 1891.

STATEMENT OF THE COST OF THE WORKS TO JAN. 1, '91.

ENGINEER'S REPORT.

To Messrs. James Mackintosh, John Moseley and John M. Hodge, Water Commissioners, Needham, Mass.

Gentlemen:

I have the pleasure of presenting the following descriptive report on the construction of the Needham Water Works in 1890:—

The system as constructed is substantially that outlined in your report to the town dated May, 1890, no changes being found advisable upon a more detailed examination. It is a pumping system with a reservoir for supplying domestic consumption and maintaining a fire service between periods of pumping, the whole consisting of the following parts:

A large supply well from which the water is taken.

A pumping station containing the pumping machinery.

A system of street pipes in the two villages.

A system of post hydrants for fire purposes connected with the street mains.

A reservoir or stand-pipe to relieve the pumps from constant use, and

The service pipes as house connections with the mains.

The preparation of the detail working plans and specifications began near the first of June 1890 and continued throughout, as the various parts of the work were taken into consideration.

Bids for furnishing the cast-iron pipes were received June 12, and the first work of construction accomplished in excavating for the reservoir foundation at Ryan's Hill on June 16th. The beginning of other parts of the system followed this in good season, and the work pushed to a completion of the whole near the middle of December 1890; the first pumping into the pipe being done on Dec. 1st.

The supply well from which the water is taken by the pumps is located about a thousand feet north of Dedham avenue, and west of South street, in the Colburn meadow, at the most westerly of the three springs. The natural flow of water being the largest there, and the test well showing the most favorable material for an excavation. Of the eight other test wells sunk in the Colburn and adjacent meadows, none showed so good results; two in particular indicating quicksand for a depth of over 30 feet.

During the process of constructing the well, water was constantly pumped from the excavation and as the time thus occupied included a period of drought when many water supplies ran short, the minimum supply from this source was doubtless obtained. During a constant draught day and night for two weeks, weir guagings of the water pumped showed a minimum yield of 415,000 gallons per 24 hours, being 4,000 gallons in excess of the estimated yielding capacity of the water-shed at this point, based upon an minimum rainfall of 36 inches. In the first 66 hours of this time the amount of water pumped was 520,000 gallons per 24 hours. Later on a constant draught of three weeks showed a minimum of 415,000 gallons as before.

No quicksand was found in the excavation and but a small quantity of rock near the bottom. Several pockets of clay that appeared were covered up to prevent discoloration of the water. The other two springs were sealed over, thus forcing the entire flow to this point. The fin-

ished well is circular in form, has an average diameter of 22 feet with a depth of 24 feet, and is built of rubble stone laid dry except at the top and lined with a 12-inch circular brick wall laid in hydraulic cement mortar. The space behind the stone work was filled with clean sand and gravel. There is an overflow 2 feet below the top, to which point the water rises and escapes in a large stream when the pumps are not in operation, although the original surface of the spring was 2 feet lower. The water stands 22 feet deep and small stones on the bottom of the well can be distinctly seen through it. A conical roof surmounts the whole; the grounds are graded and a graveled driveway encircles the well.

A 12-inch cast iron suction pipe connects the well with the pumping station, the latter being placed out of the swamp land and near the street. The pipe is 970 feet long and is laid on a true grade. Considerable quicksand and water were encountered during the work of laying the pipe, necessitating the use of a steam pump at the trench.

The pumping station faces Dedham avenue 75 feet back from the street and is situated about midway between the present supply well and a possible filter gallery by the Charles River, provision being made for a connection with the suction pipe from that direction if ever desired.

The station is a substantial brick building, with black slate roof, copper gutters and cupola for ventilation. It has two rooms, one for the engines and one for the boilers, with a brick smokestack at the rear of the boiler room 70 feet high and containing a 30-inch flue. A coal and horse shed of wood with slate roof is conveniently connected by a passageway with the boiler room. The floors are all the same level, being 246 feet below high water in the reservoir, 5 feet below the overflow in the well, and 12 feet above approximate low

water in the Charles River. The boiler room has paved brick and the engine room southern pine flooring. A graded driveway leads from the street, passes around the building and continues to the supply well.

The pumping machinery within the building consists of two boilers and two pumps with their condensing apparatus, piping, valves, etc. The boilers are horizontal, tubular, made of 50,000 lbs. tensile strength iron, each 54 inches in diameter, by 13 feet long, and containing 49 best lapwelded tubes, each 3½ inches in diameter and 12 feet long.

A heavy brick setting is provided, with air spaces and expansion joints. The fire boxes are 4 by 4½ feet, lined with fire brick and supplied with shaking grates. The boilers have an estimated capacity of 50 horse power each.

The pumping engines are two in number, of the compound duplex, direct acting pattern, each having initial steam cylinders 10 inches in diameter, expansion cylinders 18½ inches in diameter, water cylinders 9 inches in diameter with a 12 inch stroke for all.

Each pump has ample air chambers, an air charging device, a counter for recording the revolutions of the engine and is so arranged that it can be run singly or in connection with the other one, and condensing or non-condensing; in the latter case exhausting into the atmosphere. There are two air pumps and condensers that can be run singly with either engine or together. Water, steam and vacuum gauges are provided, and the steam pipes covered with asbestos cement. Suitable drain pipes are connected and carry waste water away from the building.

The specified time for testing the pumping machinery has not yet arrived, but at a preliminary trial held Dec. 11, ten days after the first pumping was done, very good results were obtained. At this trial the steam pipes were only partially covered with non-conducting material, and a

change was made after an hour of pumping, from the east to the west pump, as some sand had entered the pump cylinder of the first. The second pump was cold and five minutes were consumed in making the change, so that the use of considerable steam was lost in consequence. The fire under the boiler at the end of the trial was somewhat thinner than when starting.

The work done by displacement was 103,113 gallons of water pumped against an average indicated pressure of 112 pounds per square inch, with 525 pounds of soft coal. The average steam pressure was 68.5 pounds; average vacuum maintained 24 inches; average rate of piston travel 91.4 feet per minute; length of stroke 12¼ inches; average number of gallons pumped per minute, 560; duration of trial 184 minutes.

Measurements were taken at the reservoir, of the amount of water pumped into it, which added to the estimated domestic consumption at the time, gave results coinciding very closely with the displacement calculations.

The guarantee of the manufacturer is to pump 500 gallons of water per minute to high water in the reservoir, with 70 pounds of steam and a piston travel not exceeding 90 feet per minute; and to raise 100,000 gallons of water to high water in the reservoir with 525 pounds of good bituminous coal and steam pressure at 70 pounds per square inch.

The force main leading from the pumps to the reservoir is 10 inches in diameter for 8293 feet of the way and 12 inches in diameter for the remaining 3548 feet. It passes through Needham village becoming a part of the distribution system, and leaves the highway at a right angle with the main line, nearly midway between Needham and Highlandville, continuing in a direct course to the stand-pipe; thus reducing loss of pressure by friction to a minimum and equalizing the fire service in the two villages.

The pipes of the distribution system are made of cast iron from smelted pigs and tested at the foundry to 300 pounds pressure per square inch. They are 12, 10, 8, 6 and 4 inches in diameter, 316 feet of this latter size only being used to complete a circuit, and weigh per piece of 12 feet 4 inches in length 986, 740, 555, 370 and 222 pounds respectively. Some of the pipes were cracked in transportation and a few defects were discovered, but as a whole the iron was of good quality; no unusual waste occurred, and the weights marked were shown by numerous tests to be under rather than over the actual amount. The number of pipes ordered came within a few pieces for each size, of the exact number required when laid in the ground so that no surplus was left over.

There are 59 post hydrants set, 57 having 6¼-inch stand pipes and two 2½-inch outlets; and two having 8-inch stand pipes and four 2½-inch outlets. All placed about 500 feet apart on the street mains. Upon trying the hydrants one only was found that required a new valve ring; all dripped properly and none froze during the severe cold weather. Water stood in one as high as in the ground but was prevented from freezing by banking the earth about it.

The system is provided with 69 valves to be used in shutting the water off from any section of piping needing repairs.

Very little rock was encountered in laying the pipes and most of the digging was easy. Several brooks, culverts and railroad crossings had to be passed under, and one cattle-pass provided for.

Cold weather set in before the pipe laying was completed; trenching for the last 2,100 feet laid, being done through more than six inches of frozen ground, necessitating 600 feet of 6-inch pipe laying to be laid over until

spring. However the full 7.7 miles called for had already been laid, as an addition of about 700 feet had been made on another street.

When the pipes were tested by water pressure but two leaks appeared, those being occasioned by cracked pipes, showing the joint work to be very thorough. At the first hydrant practice by the firemen on Dec. 9, no obstructions of water-way in the pipes were developed, the pressures found ample and excellent fire streams were thrown.

Following is a list of pipe laid in 1890:

LIST OF PIPE LAID IN 1890.

Total, 40,794.4 feet, or 7.72 miles.	4,518.9	11,424.0	12,036.8	12,498.2	316.5	6	14	18	31	59

The service pipes are of two kinds, lead and cement lined iron; selected as being the best and giving the water taker the opportunity of using his preference for either. The pipes are laid 5 feet below the surface, and up to the time when frost prevented further work 80 connections had been made; the town doing the work from the main to the inside of cellar wall and charging the owner of the premises for the portion on his property. Of the 80 put in, 10 were of lead, 68 of cement lined iron and 2 of large size.

The reservoir located on Ryan's Hill is cylindrical in form, 25 feet in diameter and 85 feet high, made of wrought iron and built up in courses of large sheets riveted together. It rests on a foundation of rubble stone masonry laid solid in hydraulic cement mortar with an arched tunnel below for the entrance of the leading main. The reservoir is thoroughly anchored and braced, has a manhole near the bottom, an iron ladder inside and out, a balcony around the top and a roof for the exclusion of light.

The iron is guaranteed to have a tensile strength of 50,000 lbs. per sq. inch of cross section, is 5/8 of an inch at the bottom and diminishes by sixteenths of an inch to 1/4 inch at the top, so that there is a mininum factor of safety of 4. That is, in order to rupture the iron, a pressure would be required 4 times as great as the water in the reservoir could ever exert. All vertical seams are double riveted and also the horizontal seams for a distance of 25 feet above the bottom. The iron appeared to be of good quality, no blisters or other weak places were discovered and the sheets calipered a trifle thicker than called for. The riveting is well spaced, joints smoothly caulked, bottom and flange joints tight and the indications are that the reservoir will be a durable structure. It should have another coat of paint on the outside in the spring, as the weeping which always occurs at the first filling of a tank caused some discoloration.

The reservoir contains 3,672 gallons for every foot in height and holds when full to high water mark 3 feet below the top 301,104 gallons. High water is 163 feet above Highlandville Common giving 70 lbs. pressure, 182 feet above Needham Common giving 79 lbs. pressure, 200 feet above the intersection of Great Plain ave. and Central ave., or 87 lbs. pressure and 245 feet above Central ave. near Hunnewell street giving 106 lbs. pressure.

The contracts for the different parts of the work were carried through by the original contractors without failure or the necessity for intervention by the town. The work has been done economically, no unusual expense has been incurred, and I feel confident that time will attest to its thoroughness.

I was principally assisted in the work of superintending construction by Mr. J. W. Leonard and Mr. G. B. Sidelinger, and wish to acknowledge the kind aid and support that your board gave me throughout, which enabled the work to progress smoothly from the beginning.

A plan has been prepared showing the entire system as constructed in 1890, also a location book containing detail sketches and measurements, indexed, and for use in finding any gate, branch or other portion of work placed under ground.

Very respectfully,

LOUIS E. HAWES,

Civil Engineer.

75 State St., Boston,
Jan. 20, 1891.

TOWN OF NEEDHAM.

REPORT

OF THE

SCHOOL COMMITTEE

FOR THE YEAR 1890.

In the management of the public schools of the town of Needham the past year, the same methods of instruction have been followed and the same rules of discipline observed, with substantially the same results as in former years.

The work performed from year to year in our schools is of so uniform a character and quantity, that the report of your committee as to these particulars for one year

may be pointed to and almost adopted by them as their report for the next. All our schools are in a prosperous condition. Our teachers are both efficient and faithful. The methods of instruction followed by them are, we believe, of the latest and most approved. The appropriations of the town for the support of our schools are liberal and have been judiciously expended, and yet the work accomplished, while it is all that can be reasonably expected under our present system of supervision is still very far from what we wish that it might be, and we feel that until some change is made in this particular we can look for but little improvement. It is quite apparent that without that concert of action in the work of the schools which the assistance of a superintendent especially employed for that purpose would insure, and with only such supervision as can be brought to the work by a board composed of members having other pursuits in life to occupy their attention, it is impossible to attain the highest and best results. The limited number of schools in the town does not warrant us in asking for the employment of such a superintendent, and unfortunately the combined number of the schools in the towns with which it would be practical for us to unite to form a district under the state law is insufficient to meet the requirements of its provisions. We have reason to believe, however, that a sufficient number will soon be established, when an effort will be made to form a district and take advantage of the law.

A question of serious importance which constantly presents itself is: Are we doing the best we can for the children in our public schools? Are we doing for them that which will best fit them for the various position in life which they are soon to fill? We have in our schools many children, who, while they may not be proficient or apt in their studies still have accurate eyes and

skillful hands upon which they must soon rely to earn their daily bread. Are we doing for them all we should? Have not these children an equal right with their more scholarly companions to such instruction and advantages in the schools as shall be most calculated to develop in them whatever of ability they may possess, thereby best fitting them for life's important duties? In a word, should not the industrial training of these children receive that attention which its importancein their lives seems to demand? If the sole object for which our schools are established be the intellectual training of our children, then we may be doing our whole duty in the matter, but if their purpose be the broader object of so educating and training our children as shall best enable them "to exert the talents wherewith God has blessed them as well to his glory as to their own welfare and that of their fellow-creatures," then these questions are still unanswered. We make these suggestions with little expectation that any radical change will at once be made in this direction, but as our town grows and we are called upon to form new schools and build new schoolhouses, the time will very soon come, when it will no longer be a question as to whether we are doing our whole duty if we neglect to pay more attention to this very important branch of education. Early in the year your committee were directed by the State Inspector of Factories and Public Buildings to provide better and additional means of ventilation in the Kimball school building, and at a special town meeting held in May last, the sum of fifteen hundred dollars was appropriated for that purpose. It was the intention of the inspector and your committee to have this attended to during the summer vacation, but owing to the large amount of this kind of work being done at that time throughout the state, the parties with whom it was proposed to contract found it impossible to undertake and complete the work before the open-

ing of the Fall term. As this would have seriously interfered with the sessions of the schools in the building it was necessarily postponed. This work will have to be done the present year at the first convenient opportunity and your committee recommend that the appropriation already made for that purpose be continued for the same object. An increase of pupils in the Dwight Primary school has made it necessary to employ an assistant teacher for that school, thus slightly increasing the expense of carrying on the schools by the addition of one more to our corps of teachers.

We append to this report a table of statistics which we trust will be found of interest.

The number of persons between the ages of five and fifteen years belonging to the town in May last as shown by the census taken at that time was: Boys, 226; girls, 236; total 462, an increase of seventeen over the previous year.

The sum of forty-eight dollars has been paid into the town treasury during the year for tuition of pupils from the town of Dover.

We make no recommendation as to appropriations for the present year. A committee having been appointed by a vote of the town whose duty it will be to consider that subject and report.

For the Committee,

EMERY GROVER, Chairman.
